Erin Sedor is the founder and CEO of Black Fox Strategy and a thought-leader in the area of strategy, risk and resilience possessing more than 28 years-experience as a risk professional, c-suite officer and now executive and board consultant. Erin has a particular talent for identifying hidden risks and missed opportunities that hinder growth, helping her clients fine-tune performance without unnecessary complexity or reinvention. It was this experience that allowed her to play a key role in turning around the Corporate operations of a \$450m company through design and execution of a multi-year strategic plan that achieved record profits for two consecutive years and delivered a Corporate-wide 20% reduction in G&A expense during her tenure. Her diverse experience and ability to bridge common cultural communication gaps makes her highly adept at fostering relationships at all levels of an organization. Erin is passionate about enabling knowledge transfer to grow internal client capabilities and has developed a uniquely effective Essential Strategy© approach that creates the foundation for greater risk visibility and strategy performance.

Specialized Practice

Our practice specializes in strategy gap assessments at all levels of the organization and has developed customized tools including the proprietary Strategic Performance Alignment© (Board & Leadership), Mission Critical 360© (Entity Resilience), Executive Transition 360© (Baseline & Expectations) and the Optimal Synergy 360© (Health Check). We also design custom gap assessments to surgically address specific concerns such as capture strategy or failing performance issues. There simply is no other firm that has the executive, operational and risk expertise we do to identify blindspots in your organization. **We are strategy risk experts – it's all we do.**
